Compliant SDS for GHS: HazCom 2012 / United States; WHMIS 2015 / Canada; NMX-R-019-SCFI-2011 / Mexico

The content of this SDS is also valid in Spanish Mexican language to cover all Central, South America (except Brazil) and the Caribbean countries.

SAFETY DATA SHEET

Electrolyte Formula MS12

Section 1. Identification

GHS product identifier	: Electrolyte Formula MS12
Other means of identification	: Not available.
Product type	: Liquid.
Material uses	: Electrolyte solution.
Manufacturer	: Capital Weld Cleaners 425 E. Germann Rd Suite 102 Gilbert, AZ 85297
Emergency telephone number (with hours of operation)	CHEMTREC, U.S. : 1-800-424-9300 International: +1-703-527-3887 24/7

Section 2. Hazards identification

OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
Classification of the substance or mixture	: SKIN CORROSION/IRRITATION - Category 2 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A
GHS label elements	
Hazard pictograms	
Signal word	: Warning
Hazard statements	: H319 - Causes serious eye irritation. H315 - Causes skin irritation.
Precautionary statement	<u>s</u>
Prevention	 P280 - Wear protective gloves. Wear eye or face protection. P264 - Wash hands thoroughly after handling.
Response	 P302 + P352 + P362-2 + P363 - IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. Wash contaminated clothing before reuse. P332 + P313 - If skin irritation occurs: Get medical attention. P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 - If eye irritation persists: Get medical attention.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazards not otherwise cla	ssified (HNOC)

Section 2. Hazards identification

Physical hazards not	: No
otherwise classified	
(PHNOC)	
Health hazards not	: No
otherwise classified	
(HHNOC)	

None known.

: None known.

Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Other means of	: Not available.
identification	

CAS number/other identifiers

In the state of th	
Product code	: Not available.
CAS number	: Not applicable.

Ingredient name	%	CAS number
Malic acid	1 - 5	6915-15-7
Sodium etasulfate	1 - 5	126-92-1
Citric Acid	1 - 5	77-92-9

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get medical attention.
Inhalation	:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention if symptoms occur.
Skin contact	:	Wash contaminated skin with soap and water. Continue to rinse for at least 20 minutes. Get medical attention.
Ingestion	:	Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects	
Eye contact :	Causes serious eye irritation.
Inhalation :	No known significant effects or critical hazards.
Skin contact :	Causes skin irritation.
Ingestion :	Irritating to mouth, throat and stomach.
Over-exposure signs/symptom	<u>15</u>

Section 4. First aid measures

Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: No known significant effects or critical hazards.
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No known significant effects or critical hazards.
Indication of immediate med	dical attention and special treatment needed, if necessary
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: No specific fire or explosion hazard.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide Sulfur oxides halogenated compounds metal oxide/oxides
Special protective actions for fire-fighters	: No special measures are required.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: Provide adequate ventilation. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Section 6. Accidental release measures

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Spill

: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). The spilled material may be neutralized with sodium carbonate, sodium bicarbonate or sodium hydroxide. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling	L	
Protective measures	:	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from alkalis. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from alkalis. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters

United States

Occupational exposure limits

None.

<u>Canada</u>

Occupational exposure limit	<u>s</u>	TWA (8 hours))	STEL ((15 mins	;)	Ceilin	g		
Ingredient	List name	ppm	mg/m³	Other	ppm	mg/m³	Other	ppm	mg/m³	Other	Notations
Sodium Chloride	US ACGIH	-	10 3	-	- -	-	-	-	-	-	[a] [b]

Form: [a]Inhalable fraction. [b]Respirable dust

<u>Mexico</u>

Section 8. Exposure controls/personal protection

Ingredient name		Exposure limits
Sodium Chloride		ACGIH TLV (United States). TWA: 10 mg/m ³ Form: Inhalable fraction. TWA: 3 mg/m ³ Form: Respirable dust
Appropriate engineering controls	: Good general ventilatio contaminants.	n should be sufficient to control worker exposure to airborne
Environmental exposure controls		ion or work process equipment should be checked to ensure quirements of environmental protection legislation.
Individual protection meas	ires	
Hygiene measures	eating, smoking and us	and face thoroughly after handling chemical products, before ing the lavatory and at the end of the working period. Ensure and safety showers are close to the workstation location.
Eye/face protection	assessment indicates the gases or dusts. If contained	ing with an approved standard should be used when a risk his is necessary to avoid exposure to liquid splashes, mists, act is possible, the following protection should be worn, unless es a higher degree of protection: chemical splash goggles.
Skin protection		
Hand protection		pervious gloves complying with an approved standard should be handling chemical products if a risk assessment indicates this is
Body protection		uipment for the body should be selected based on the task being s involved and should be approved by a specialist before
Other skin protection		nd any additional skin protection measures should be selected g performed and the risks involved and should be approved by a ng this product.
Respiratory protection	standard if a risk asses	r-purifying or supplied air respirator complying with an approved sment indicates this is necessary. Respirator selection must be icipated exposure levels, the hazards of the product and the safe lected respirator.

Section 9. Physical and chemical properties

Appearance		
Physical state	1	Liquid.
Color	1	Green.
Odor	1	Slight
Odor threshold	1	Not available.
рН	1	1.8 to 2.2
Melting point	1	0°C (32°F)
Boiling point	1	100°C (212°F)
Flash point	1	Not available.
Evaporation rate	1	Not available.
Flammability (solid, gas)	1	Not available.
Lower and upper explosive (flammable) limits	1	Not available.
Vapor pressure	:	Not available.

Section 9. Physical and chemical properties

Vapor density	: >1 [Air = 1]
Relative density	: 1.12
Solubility	: Miscible in water.
Partition coefficient: n- octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: Not available.
Volatility	: Not available.
VOC (w/w)	: 3 % (w/w)

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials, reducing materials, acids and alkalis. Slightly reactive or incompatible with the following materials: metals.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Malic acid	LD50 Oral	Rat	1600 mg/kg	-
Sodium etasulfate	LD50 Oral	Rat	4 g/kg	-
Citric Acid	LD50 Oral	Rat	3 g/kg	-

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Malic acid	Eyes - Severe irritant	Rabbit	-	24 hours 750 µg	-
	Skin - Moderate irritant	Rabbit	-	24 hours 20 mg	-
Sodium etasulfate	Eves - Mild irritant	Rabbit	-	250 µg	-
	Skin - Moderate irritant	Rabbit	-	500 mg	-
Citric Acid	Eves - Severe irritant	Rabbit	-	24 hours 750 µg	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 mg	-
	Skin - Moderate irritant	Rabbit	-	0.5 mL	-

Sensitization

There is no data available.

Carcinogenicity

There is no data available.

Section 11. Toxicological information Specific target organ toxicity (single exposure) There is no data available. Specific target organ toxicity (repeated exposure) There is no data available. Aspiration hazard There is no data available. Information on the likely : Dermal contact. Eye contact. Inhalation. Ingestion. routes of exposure Potential acute health effects Eye contact : Causes serious eye irritation. Inhalation : No known significant effects or critical hazards. Skin contact : Causes skin irritation. : Irritating to mouth, throat and stomach. Ingestion Symptoms related to the physical, chemical and toxicological characteristics : Adverse symptoms may include the following: Eye contact pain or irritation watering redness Inhalation : No known significant effects or critical hazards. **Skin contact** ÷. Adverse symptoms may include the following: irritation redness : No known significant effects or critical hazards. Ingestion Delayed and immediate effects and also chronic effects from short and long term exposure Short term exposure **Potential immediate** : No known significant effects or critical hazards. effects **Potential delayed effects** : No known significant effects or critical hazards. Long term exposure : No known significant effects or critical hazards. **Potential immediate** effects **Potential delayed effects** : No known significant effects or critical hazards.

Potential chronic health effects

: No known significant effects or critical hazards.
: No known significant effects or critical hazards.
: No known significant effects or critical hazards.
: No known significant effects or critical hazards.
: No known significant effects or critical hazards.
: No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates There is no data available.

Section 11. Toxicological information

Section 12. Ecological information

Toxicity

Product/ingredient name	Result	Species	Exposure
Citric Acid	Acute LC50 160000 μg/L Marine water	Crustaceans - Carcinus maenas - Adult	48 hours

Persistence and degradability

There is no data available.

Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
Malic acid	-1.26	-	low
Citric Acid	-1.8		low

Mobility in soil

Soil/water partition	: There is no data available.
coefficient (Koc)	

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
